do not teach or suggest such as composition. Furthermore, the prior art do not teach such a composition which is, also, devoid of a film-forming agent, a copper complexing agent, and ammonium cations and forms a passivating layer on said surface wherein neither copper nor copper oxides are soluble in said composition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
